### 3. 1- Add Employee

A screenshot of a web browser displaying the 'Employee Details Form' on a desktop. The page has a light gray background and the title 'ENTER EMPLOYEE DETAILS' in the center. Below the title are four input fields: 'Name', 'Designation', 'Address', and 'Phone'. At the bottom is a purple button labeled 'ADD EMPLOYEE'. The browser's address bar shows the URL 'employeeetails.pythonanywhere.com/add\_employee'.

Desktop View

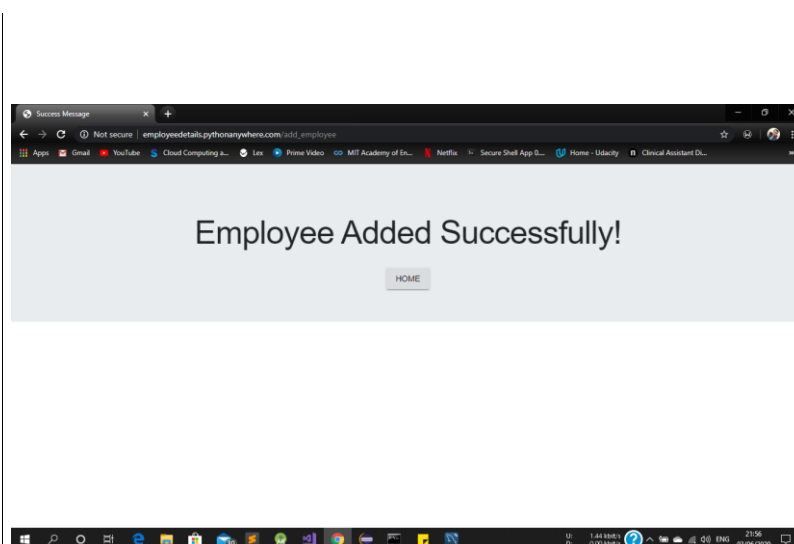

A screenshot of a mobile browser displaying the 'Employee Details Form'. The layout is responsive, with the input fields and the 'ADD EMPLOYEE' button stacked vertically. The browser's address bar shows the URL 'tails.pythonanywhere.com'.

### 3. 2- Add Employee Success Message

A screenshot of a web browser displaying a success message on a desktop. The page has a light gray background and the text 'Employee Added Successfully!' in the center. Below the text is a small button labeled 'HOME'. The browser's address bar shows the URL 'employeeetails.pythonanywhere.com/add\_employee'.

Desktop View

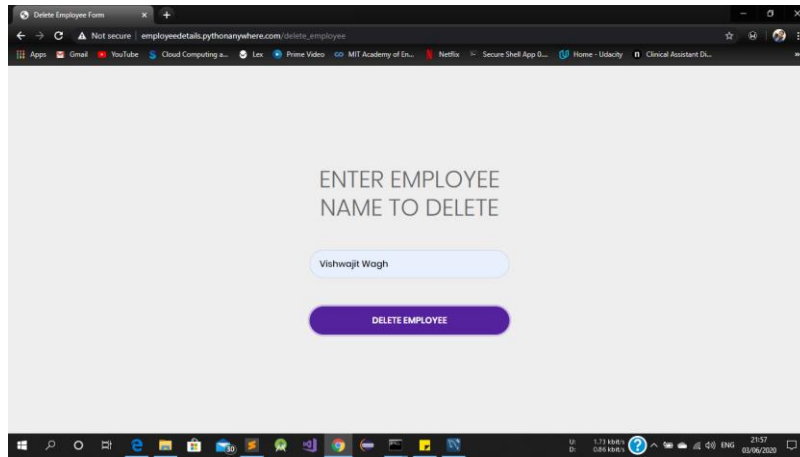

A screenshot of a mobile browser displaying the success message. The layout is responsive, with the text 'Employee Added Successfully!' and the 'HOME' button centered. The browser's address bar shows the URL 'tails.pythonanywhere.com'.
